

I recently heard about a proposal the FCC is considering that would diminish the protection I already receive from Indiana's Telephone Privacy law. Since registering with Indiana the unsolicited phone calls have ceased! I was getting unsolicited phone calls every week, usually when I was having dinner with my family or having family time after dinner. I request you review Indiana's Telephone Privacy law and take into consideration with your proposal. I would hope that any FCC proposal would not diminish nor prevent the state of Indiana from continuing this great privacy law. Thank you for your consideration of this matter.
